

Wave Trust

PSHE Curriculum

Including Citizenship at KS3

Our Trust curriculum, used in the Regional APAs where Subject Leads are 'solo', is underpinned by our WAVE values, which also serve as powerful and unique drivers for our curriculum:

Be positive: We have the highest expectations of what our pupils are capable of, no matter what their starting points, and no matter how many fresh starts. Through our Curriculum offer, we will strive to develop unique talents; build confidence; character, aspiration; attainment and at KS4, also qualifications. We aim to prepare pupils for their next steps, and life in modern Britain. We believe every child can learn to read.

Show empathy: We seek first to understand, then to be understood. Through our curriculum, we will develop empathetic learners who have an awareness, understanding and are considerate of themselves; their peers; our communities; as well as of the world around us all.

Have respect: Our curriculum will support of students to respect themselves, each other and teach an understanding and awareness of diversity.

Work as one team: Our curriculum gives our students opportunities to work collectively together, through opportunities to talk, listen, and create. We will draw on every opportunity for learning, both planned and unplanned, to develop pupils' ability to reflect, engage and relate positively to one another.

Be inclusive: We will strive to ensure our curriculum is accessible and meets the needs of all our learners. Not one size fits all, but skilfully adapted to meet individual need and SEND/SEMH need.

Intent

At Wave Multi Academy Trust, we recognize the vital importance of Personal, Social, Health, and Economic Education (PSHE) in supporting the holistic development and well-being of our students.

Our intent is to provide a comprehensive and impactful PSHE curriculum that empowers our students with the necessary knowledge, skills, and attitudes to navigate the complexities of their personal lives, relationships, and the wider society.

To achieve this aim, we have developed a structured and inclusive approach to PSHE implementation. Our curriculum covers a wide range of topics relevant to our students' needs and experiences, including mental health and emotional well-being, relationships and sex education, personal finance, health and lifestyle choices, and online safety.

The implementation of our PSHE curriculum is grounded in the principles of inclusivity, differentiation, and student participation. We recognize that our students come from diverse backgrounds and have unique circumstances, so we tailor our PSHE lessons to meet their specific needs. We employ a variety of teaching methods, including interactive discussions, role-plays, case studies, and multimedia resources, to engage and empower our students.

In addition to formal PSHE lessons, we integrate PSHE principles throughout our wider school environment. We foster a supportive and respectful ethos that encourages open communication, empathy, and understanding. We provide opportunities for student voice and participation through student councils, peer mentoring programs, and extracurricular activities that promote healthy lifestyles and positive relationships.

This implementation can be summarised by the following areas:

Curriculum Design: Develop a well-structured and engaging PSHE curriculum that aligns with national guidelines and addresses the specific needs of our students in the alternative provision setting. This curriculum will encompass relevant topics such as mental health, emotional resilience, self-esteem, healthy lifestyles, relationships, citizenship, employability, and financial management. In line with the PSHE Association, the 3 themes of RELATIONSHIPS; LIVING IN THE WIDER WORLD; HEALTH and WELLBEING are revisited throughout the terms as laid out below.

Tailored Approaches: Recognize the diverse backgrounds, experiences, and learning styles of our students. Implement varied teaching strategies, resources, and activities that cater to their individual needs and facilitate active participation and learning. This may include role-plays, discussions, group work, guest speakers, multimedia materials, and real-life scenarios.

Wellbeing Support: Foster a nurturing and inclusive environment where students feel safe, valued, and supported. Provide access to mental health and wellbeing support services, such as counselling or mentoring, to address individual challenges and build resilience. Collaborate with external agencies and professionals to ensure a holistic approach to student well-being.

Cross-Curricular Integration: Embed PSHE principles throughout the wider curriculum to reinforce learning and encourage the application of skills in various contexts. Foster links between PSHE and other subjects, such as citizenship, physical education, and careers education, to provide students with a well-rounded education that connects theoretical knowledge with practical skills.

Partnerships and Engagement: Collaborate with parents, carers, and the wider community to ensure a coordinated approach to students' PSHE development. Engage external organizations, such as local charities, health professionals, and employers, to provide meaningful experiences, workshops, and industry insights. Promote active involvement of students in decision-making processes and encourage peer-to-peer learning and support networks.

The impact, and intent, should be evident within:

Improved Well-being: Students will develop emotional resilience, self-awareness, and positive mental health strategies, leading to increased overall well-being and the ability to cope with life's challenges effectively.

Enhanced Social and Communication Skills: Students will develop effective communication, collaboration, and conflict resolution skills, enabling them to build positive relationships, work effectively in teams, and contribute to their communities.

Healthy Lifestyles: Students will acquire knowledge about healthy eating, physical activity, and substance abuse prevention, empowering them to make informed decisions and adopt a balanced lifestyle.

Positive Relationships: Students will understand the importance of healthy relationships, consent, and respect, enabling them to form and maintain positive friendships, romantic partnerships, and family dynamics.

Financial Literacy: Students will gain essential financial management skills, understanding concepts such as budgeting, savings, debt management, and employability skills, preparing them for future financial independence and success.

Responsible Citizenship: Students will develop an understanding of their rights, responsibilities, and roles within society, nurturing their sense of social justice, equality, and active participation in democratic processes.

Through ongoing assessment and evaluation, we will monitor the impact of our PSHE curriculum, making necessary adjustments and improvements to ensure its effectiveness. By nurturing the well-being and personal development of our students, we believe that our PSHE provision will have a lasting and transformative impact on their lives, enabling them to thrive academically, socially, and emotionally, both during their time with Wave Multi Academy Trust and beyond.

Relationships, Health and Sex Education

[RSE Guide for Parents](#) and relevant pages on Wave Mat website for parents: [RSE Info in Wave MAT website](#)

Parents are consulted regularly in terms of content, and rights of withdrawal, via Academies usual channels of communication, and importantly, on induction, where details of the RSE curriculum are shared. Details can be found in the RSE policy. Further details for Primary parents/carers can be found in the Parent Carer Zone here:

[Primary PSHE Parent and Carer Zone](#)

Primary PSHE

Pupils in Primary within our Behaviour APAs, are taught in a mixed year class generally of KS1, Lower Key Stage 2 and Upper Key Stage 2. In some of our smaller provisions, this may be split across KS1 and LKS2; LKS2 and Upper Key Stage 2. For RSE content, teachers remain particularly mindful of age appropriateness, and adapt teaching accordingly, using TAs to support more bespoke teaching as required. Details of how topics are split is provided below, and in Academies 'own Section' explaining their curriculum approach in greater depth below>

Our Trust Primary PSHE Curriculum

We have adopted the 1 Decision Primary PSHE curriculum for our Regional APAs with Primary after trial/pilot with leaders. The resources are available to our Medical AP where they are needed. It is mapped to the updated 2020 PSHE Association's programmes of study and 3 core themes which we already teach within our Primary APAs, and forwards into Secondary. The 1 Decision resources help children to develop the skills needed to manage difference influences and pressures, as a part of their personal development. The resources help children to develop the skills needed to manage difference influences and pressures, as a part of their personal development.

During their time at primary school, children will encounter many of life's challenges for the first time. 1decision aims to provide children with the knowledge and skills needed to lead safe, healthy, and happy lives.

We identified that this resource would further enhance Academies' provision of PSHE Association programme of study because it is PSHE Association Kite Marked and brings a consistency that we believed would engage our pupils, and empower them to make choices, and learn about consequences of choices. This is critical in our work with pupils in AP.

**PREVENTION
NOT CURE**

PSHE Association
Quality Assured
Resource
PSHE
Association

At its core are a series of short film clips with alternative endings, which encourage children to consider the consequences of different decisions. The resources allows students to experience challenging situations in a safe environment. This is particularly helpful for us within our context and setting, and ongoing commitment to teaching safeguarding.

Our PSHE lessons this allow children to develop essential skills, knowledge, and vocabulary to manage different influences and pressures in their lives and to make safe and informed choices. Teachers and children use these films alongside pupil workbooks and on-screen lesson guides to explore various topics in a safe and supportive learning environment. The 'decision' element, and consistency in this approach in terms of structured discussion around core issues, and effective opportunities for speaking and listening, were deemed highly effective for our learners. The resourcing and training element within the site enables us to support newer teachers, as well as more experienced teachers, in bringing the high quality provision we need to this central element of our taught curriculum in AP. After research into effective programmes, it is the fact that 1 Decision is PSHE Association Kite Marked, and the evidence that it is used successfully in many schools-with high levels , that led to our decision to use this curriculum, enhancing our consistent approach to PSHE. We are also confident in the mapping it provides in terms of the Statutory Content of RHSE, with quality assured resources to support effective teaching and learning alongside. For more details, please see our Parents' Zone here:

[Primary PSHE Parent and Carer Zone](#)

1decision links to the PSHE Association's Programme of Study based on their three core themes: Core theme 1: Health and Wellbeing Core theme 2: Relationships -Core theme 3: Living in the Wider World -

These core themes are our consistent 'golden threads' of our PSHE approach at Wave Trust, and enables the spiral approach for pupils who join our provision at different times.

The 1decision resources have been built around the above three core themes, and the 10 principles of effective PSHE education, which are as follows:

1. Start where children and young people are: find out what they already know, understand, are able to do, and are able to say. For maximum impact, involve them in the planning of your PSHE education programme. *In our mixed year classes, this discussion at the starts of topics are essential.*
2. Plan a 'spiral programme' which introduces new and more challenging learning, while building on what has gone before, which reflects and meets the personal developmental needs of the children and young people. *Our Primary 1 Decision Curriculum is spiral in structure, and this is important given the different times pupils may join our provision so that no pupil is left behind.*
3. Take a positive approach which does not attempt to induce shock or guilt but focuses on what children and young people can do to keep themselves and others healthy and safe and to lead happy and fulfilling lives.
4. Offer a wide variety of teaching and learning styles within PSHE education, with an emphasis on interactive learning and the teacher as facilitator.
5. Provide information which is realistic and relevant and which reinforces positive social norms. *The materials in 1 Decision as part of our research were found to really engage young pupils, and they are up to date.*
6. Encourage young people to reflect on their learning and the progress they have made, and to transfer what they have learned to say and to do from one school subject to another, and from school to their lives in the wider community.
7. Recognise that the PSHE education programme is just one part of what an Academy can do to help a child to develop the knowledge, skills, attitudes and understanding they need to fulfil their potential. Link the PSHE education programme to other

whole school approaches, to pastoral support, and provide a setting where the responsible choice becomes the easy choice. Encourage staff, families and the wider community to get involved.

8. Embed PSHE education within other efforts to ensure children and young people have positive relationships with adults, feel valued and where those who are most vulnerable are identified and supported.

9. Provide opportunities for children and young people to make real decisions about their lives, to take part in activities which simulate adult choices and where they can demonstrate their ability to take responsibility for their decisions.

10. Provide a safe and supportive learning environment where children and young people can develop the confidence to ask questions, challenge the information they are offered, draw on their own experience, express their views and opinions and put what they have learned into practice in their own lives

Pupils learn about British values, Protected Characteristics and ultimately through our Primary PSHE curriculum, we aim to improve personal development for every pupil.

1decision provides an interactive bank of resources which supports PSHE, RSE, Health education, SMSC development, and safeguarding.

Mapped to the PSHE Association's Programme of Study, our resources help children to develop the skills needed to manage difference influences and pressures, as a part of their personal development. Our unique suite of resources allows students to experience challenging situations in a safe environment.

During their time at primary school, children will encounter many of life's challenges for the first time. 1decision aims to provide children with the knowledge and skills needed to lead safe, healthy, and happy lives.

The curriculum in overview is here. And details can be found below, in Academies own sections, on how they have mapped coverage at their own Academy.

Secondary PSHE (including Citizenship at KS3)

Pupils in our behaviour APAs are taught in mixed year KS3 classes and should receive at least two lessons a week, including careers. For RSE, this means teachers' will adapt carefully to pupil sensitivities etc, where mixed years are together. In KS4, pupils are taught in Y10 and Y11 separately, and the curriculum overview below reflects this. The spiral themed nature of the curriculum, drawing on the PSHE Associations' themes of Living in the Wider World, Relationships and Health and Well being Add in the updated secondary benchmark overview

The specific learning objectives taken from the PSHE Association that can support planning and sequencing can be found here. [PSHE Association Programme of Study](#)

Relationships and Sex Education

The RSE policy is on the website, and explains clearly how parent consultation should take place regularly. All Academies must consult parents/carers when Pupils join the Academy using the letter provided, and provide details of the specific RSE curriculum in terms of what is taught when.

PSHE at Caradon Academy

Primary

At Caradon academy we understand the importance in the delivery of a rigorous and comprehensive PSHE curriculum which we strive to deliver both directly through weekly taught sessions using the PSHE Association Kite marked program, One decision, and indirectly through additional opportunities such as meet and greets, nurture time, assemblies, focused national days, external visitors and through acting upon any safeguarding concerns which may arise.

Through the use of the One decision program, we aim to provide a safe and inclusive learning environment where students can develop the knowledge, skills, and attitudes necessary for their personal and social well-being, academic success, and future employability with British values and RSE opportunities woven throughout.

At Caradon Academy, currently our PSHE curriculum is delivered across both a lower KS2 and upper KS2 classroom.

Lower Key Stage 2 - Primary Class 1

Baseline assessments for Modules 5-8 will also be taught at the start of each unit in accordance with the Program guidance.

5-8 & 8-11 MODULES	KSS	KSH	REL/ GAC	BR	FAE	CS	OW/ TWW	AWWJ	FS SPECIAL	FA SPECIAL

Children will demonstrate their own understanding of each unit within their individual workbooks, whilst also having their pupil voice captured and recorded within a class floor book. We know how important pupils voice is here at Caradon Academy, and with the structured discussion around core issues, and effective opportunities for speaking and listening we want to be able to showcase and capture these rich opportunities in a way that children can revisit freely.

To enable us to monitor and track our pupils progress within this subject at Caradon academy, we ensure that both formative assessment in the form of baseline and end of unit assessments, and summative assessment as part of the whole mat tracking systems are conducted and used to inform the planning and delivery of the PSHE units and sessions.

Secondary PSHE

PSHCE at Caradon aims to support our pupils to develop skills and strategies in order to live safe, fulfilling, responsible and balanced lives. To encourage them to develop positive personal identity, positive social interaction and the skills to live with, work with and respect others in their local community and the wider world context. At Caradon Academy we follow the WAVE Trust benchmark curriculum which is based upon the PSHCE Association curriculum. Those students who remain through year 11 will also take a personal health and wellbeing vocational BTEC unit during PSHE. The PSHCE curriculum at Caradon Academy is delivered by the following means:

Timetabled PSHE lessons delivered by Teaching staff.

Weekly rewards assembly and half termly celebration of achievement assemblies.

A weekly tutor time programme which is designed to; support students personal development by target setting and reviewing with weekly sessions that tie into the schools behaviour and rewards system. Cover key topics and news around key dates such as cultural events/holidays. Respond to the real time demands raised by our ongoing safeguarding monitoring of our pupils. We regularly adapt this based on the demands of our students to deliver targeted intervention during tutor times to combat issues such as bullying, discrimination, drug or alcohol concerns, gangs etc.

External visitors delivering specialist workshops. These include but are not limited to: CLEAR, Brook, Y-Zup, Police and NCS.

Mentoring, 1to1 staff mentoring through our key workers daily meet and greet, enrichment session mentoring sessions, or tailored mentoring in response to safeguarding monitoring.

Relationship & Sex Education

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity. RSE involves a combination of sharing information, and exploring issues and values. RSE is lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of stable family relationships, respect, love and care. It is also about the teaching of sex, sexuality, and sexual health. It is not about the promotion of sexual orientation or sexual activity - this would be inappropriate teaching. Parents are consulted about the content of our wider RSE/RHE curriculum on induction, and regularly via newsletters. Our curriculum will help young people learn to respect themselves and others and move with confidence from childhood through adolescence into adulthood. Through education we aim to reduce teenage pregnancy. RSE is taught within the personal, social, health and economic (PSHCE) education curriculum. Biological aspects of RSE are taught within the science curriculum, and other aspects are interwoven within the curriculum. Pupils also receive stand-alone sex education sessions delivered by a trained health professional.

Staff are responsible for:

Delivering RSE in a sensitive way, modelling positive attitudes to RSE, monitoring progress, responding to the needs of individual pupils, responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory/non-science components of RSE Delivery - The RSE curriculum is usually delivered in a group work setting which enables us to employ a range of activities and a number of different methodologies are used to maintain interest and help to keep the pupils feel safe. One of the main strengths of the curriculum is its flexibility to dynamically adapt to the needs of our stakeholders.
